

**Untitled**

A dead bird  
on the laboratory table  
will not teach you  
how to fly.

Any stone  
on the desert floor  
will teach you more  
about how to soar

Look up, the stones  
will tell you  
when you ask.

Look up.

Look for vultures.

Watch them.

about Flight

Look up, the stone

Look up.

Look for seabirds.
